

## CAREER DAY

Every year we dedicate one day of the year to allow our students the opportunity to peek at what is like to be a Firefighter, Police Officer, Doctor, Veterinarian, Nurse, Musician, Rocket Scientist and other fun and exciting Careers.

Our parents and community members gather at Oneonta to allow students to ask questions and understand the complexities that adults have to face in their day to day jobs.

In preparation for Career Day, our students decorate their classrooms with pictures of the professions, write down any questions they may have and welcome the invited guests into their classrooms.

They have questions and answer sessions and hands on demonstrations; allowing students to climb on to a fire truck, sit in the back seat of a police car, use a stethoscope to hear heart beats, operate an expensive movie camera to video their friends etc. These hands on activities give our students a very good insight into different career choices when they are older.

We feel that children who have these opportunities will be more likely to succeed in College and set their minds on becoming active members of their communities when they enter the adult world.

## ONEONTA STUDENTS ROCK!
