

Mission model contest: 4th graders – 2010

When the 4th graders visited the San Gabriel Mission which is part of their Social Studies curriculum, they became aware of a contest that they could participate in. Very soon they got energized and wanted to compete, and an idea was born.

For the first time this year, our 4th grade Class participated in the San Gabriel Mission's; mission model contest.

The children worked hard in their Social Studies class, gathering information and building their missions.

They also used time during their spring break to meet in their groups to finish the models. They were all very excited when all three groups that entered placed 1st, 2nd and 3rd and Oneonta won 2nd place in overall student participation, winning \$150 worth of Mission resources for our library.

Way to go Oneonta students!!!
